

PUBLIC NOTICE

11.09.2021

Free Registration for Fit India Quiz 2021

NTA will be conducting the Preliminary Round of the above Quiz in the online (Internet based) mode delivered on mobile phones.

All schools in India can register for the Quiz online only at <https://fitindia.nta.ac.in> and nominate minimum 2 students studying in their school. There is no maximum limit.

Individual students cannot apply on their own. They will have to be nominated by their respective schools.

Online registrations are in progress at the above-mentioned site from 01.09.2021 onwards.

With a view to encourage schools to participate in the programme in large numbers, it has been decided that **no registration fee will be charged from schools for nominating the minimum 2 students**. For nominating more than two students, schools will be required to pay a fee of Rs 50/- per student in respect of additional students nominated, by them, beyond 2.

The above mentioned fee structure will be effective from 11.09.2021 onwards and will be applicable only to the first 1,00,000 online applications submitted by schools, complete, in all respects.

Applications submitted beyond the specified number will attract fee payment at the rate of Rs. 50/- per student, for every student nominated.

Excess registration fee paid by schools which have already submitted their applications, arising on account of the revision in the fee structure as mentioned above, will be refunded to their account, **after the registration window closes. They will not be permitted to submit another application or add more nominations in the form already submitted.**

Schools are advised to take note of the above and act accordingly.

For any clarifications, schools can write to fitindia@nta.ac.in or call NTA Help Desk at 011 4075 9000.

Applicants are advised to be in touch with NTA website www.nta.ac.in , <https://fitindia.nta.ac.in> and Fit India website at <https://fitindia.gov.in> for updates on the subject.
